EDUCATION

Bachelor of IT
University of Palestine
2017 - 2021

ACHIEVEMENTS

Laravel PHP
Vision Plus
Jane 2020 - Sep 2020

Laravel PHP
Ajyal Foundation
Aug 2021 - Sep 2021

SKILLS

- HTML
- CSS
- JavaScript
- BOOTSTRAP
- jQuery
- Sass
- MySQL
- Laravel
- Git
- GitHub
- Restful API
- Multi tenancy

ABOUT ME

A dedicated and adept web developer, specializing in Laravel, MySQL, Git & GitHub, and Restful API integration. With a Bachelor's degree in Information Technology and extensive experience in both front-end and back-end development, I bring a comprehensive skill set honed through hands-on experience.

Throughout my career, I have consistently demonstrated my ability to navigate complex technical landscapes and deliver innovative solutions. My professional journey has equipped me with a robust understanding of web development, allowing me to tackle a wide range of challenges effectively.

Fueled by a genuine passion for coding, I am eager to push the boundaries of what's achievable in the digital world. Let's work together to bring your vision to life, line by line.

SOFT SKILLS

Communication

ASkilled in communicating complex technical ideas clearly, fostering team collaboration, and articulating project needs with precision to stakeholders.

Problem-solving

Naturally adept at dissecting complex problems and devising innovative solutions to enhance project efficiency and streamline processes.

Attention to detail

Recognized for meticulous attention to detail across all stages of software development, ensuring clean, readable code, thorough testing, and high-quality project deliverables.

Time management

PProficient in managing project timelines and deadlines, adept at prioritizing tasks to maximize productivity and consistently deliver results within specified timeframes.

Adaptability

Adaptable to new technologies, proactive in learning and integrating cutting-edge tools to stay ahead in a rapidly evolving industry.

Time management

Excel in collaborative environments, fostering positive team dynamics through open communication, active participation, and knowledge sharing to achieve collective goals seamlessly.

WORK EXPERIENCE

Full-stack Laravel Developer
Oyoun Media

Aug 2022 - Jan 2024

As part of my work at Oyoun Media, I participated in numerous prominent projects, the most significant and largest of which was the development of Oyoun Academy. Oyoun Academy is an advanced educational platform based on a multi-tenant system that integrates with Coursera, allowing users to access a variety of prestigious educational resources.
I worked on developing the backend of the system using technologies such as Laravel PHP, MySQL, and REST API, which contributed to enhancing performance and seamless integration with other educational platforms. By designing a user-friendly interface and providing an outstanding user experience, I helped enhance online learning and provide an effective and advanced educational environment.
This project reflects my commitment to delivering innovative technical solutions that contribute to achieving educational goals and developing learners' skills.

Full-stack Laravel Developer
Freelancer

Sep 2021 - Aug 2022

As a Full Stack Laravel Developer, I operated independently as a freelancer. During this period, I undertook diverse projects, leveraging Laravel's robust framework to deliver tailored solutions to clients' specific needs. My responsibilities encompassed both front-end and back-end development, ensuring seamless functionality and optimal performance across various projects.

Full-stack Laravel Developer
Droopuni Startup

May 2021 - Sep 2021

As a Full-stack Laravel Developer at Droopuni Startup, I played a key role in the development and enhancement of innovative web solutions. My responsibilities included designing and implementing features, optimizing performance, and ensuring seamless functionality across both front-end and back-end systems. This experience honed my expertise in Laravel development, project management, and collaboration within a dynamic startup environment.

Full-stack Laravel Developer
Al-Tariq Software Projects

Oct 2020 - Feb 2021

As a Laravel Developer at Al-Tariq Software Projects from October 2020 to February 2021, I embarked on my professional journey in the field of web development with enthusiasm and a thirst for learning. During this formative period, I gained invaluable hands-on experience in Laravel development, laying the foundation for my career in software engineering. However, I made the decision to transition away from this role to focus on my university studies at that time. Nonetheless, the experience I gained during my time at Al-Tariq Software Projects provided me with valuable insights and skills that continue to inform my approach to software development today.
